Anti-Aging Showcase

Anti-aging treatments appeal to all levels of spa-goers because they yield younger-looking skin without surgical lifts or tucks. SPA 20/20™ presents some of the products available for use in professional establishments offering anti-aging skincare services.

1. Advanced Rejuvenating Concepts

Advanced Rejuvenating Concepts™ introduces **Rest-A-Line Hyaluronic Acid Complex**. This soothing gel formula contains a 10-percent concentration of hyaluronic acid for superior moisture retention and increased tissue hydration. Clients experience a softer, suppler and youthful glow to their skin through the use of this moisture accelerator, the company says. (800) 689-0499 Reader Service No. 45

2. Harmony Beauty, Inc.

Harmony Beauty's **Bio-Cellular Collection** from Dominance is a natural treatment for revitalizing mature, fatigued, aging skin.

Products are formulated with RNA and DNA cellular extracts to encourage cutaneous cell regeneration and moisture retention for supple, smoother, firmer, younger-looking skin. The product contains vitamin C for stimulating collagen synthesis, delaying melanin formation and inhibiting free radicals. (800) 778-7100

Reader Service No. 46

3. Spa de Soleil

Spa de Soleil presents its **LT® Concentrated Light Therapy**, a non-invasive method of reducing facial wrinkles, scars and the effects of sun damage. Concentrated light controls and utilizes the extraordinary powers of natural light. LT® Concentrated Light Therapy is a solid alternative to some types of surgery,

facial peels and toxic injections, the company says. (800) 266-9506 Reader Service No. 47

4. Hormeta Mineral Skin Care

Hormeta® showcases its **Active Intense Whitening Serum**. The extreme clarifying power and intense protective quality of the active ingredients produce a sublime metamorphosis in skin. The clarifying power inhibits the activity of tyrosinase, an enzyme that participates in the production of melanin, which is responsible for cutaneous pigmentation; and the serum stimulates the senses, transforming the appearance of skin, the company says. (888) 435-5022 Reader Service No. 48

5. BreeZe Products

BreeZe Products' **Anti-Aging Bronzing Intensifier** and **Anti-Aging Bronzing Rejuvenator** are the latest additions to the Platinum Series. Both are formulated with premier age-defying Matrixyl™, which supports and refurbishes deteriorating collagen, dramatically optimizing wrinkle reduction. The company's exclusive Bio Bronzing formula provides maximum streak-free, dark tanning results while added copper improves skin texture and smoothness. (888) 330-8570 Reader Service No. 49

6. Candela Corp.

Candela introduces its **GentleLASE®** for the treatment of unwanted hair, facial blue veins, freckles, age spots, fine lines and

wrinkles. GentleLASE® treats all skin types quickly, comfortably and effectively, the company says.

(800) 821-2013 ext. 283 Reader Service No. 50

7. Palomar Medical Technologies, Inc.

Palomar Medical Technologies has developed the **RejuveLux™** process for the treatment of pigmented and vascular lesions on the face, as well as the arms, chest and other large areas. Using such systems as the Palomar MediLux™, the RejuveLux™ process employs intense pulsed light to clear sunspots, rosacea, telangiectasia and other conditions, in order to improve skin tone and texture, the company says. 16. Dermalogica

Dermalogica® presents its **Daily Resurfacer™**, for at-home use between professional skin treatments. The product features rooibos extract, made from a rare South African red bush that contains antioxidants 50 times more powerful than green tea polyphenols. Daily Resurfacer™ resurfaces, smoothes and brightens skin without redness or irritation, the company says. Packaged in a unique pharmaceutical single-use pouch, the product is applied after cleansing and left to air-dry. No rinsing or neutralizing is needed.

17. Ultracuticals

Ultracuticals introduces its **Ultra C Sheer Facial Cream**, a light, quickly absorbed cream that is suitable for all skin types. It contains micro-fine 20-percent pure vitamin C and uses a patented CSIRO delivery system to alleviate oxidative stress on the skin—and helps stimulate collagen synthesis, which has photoaging protective effects. Ultra C Sheer has been developed to improve the appearance of facial lines and uneven discoloration, and to restore a smoother, softer, more youthful radiance, the company says.

Reader Service No. 61

18. Methode Physiadermie

Methode Physiadermie showcases **Optimum Lift**, an anti-wrinkle cream that contains micro-encapsulated bioactives that accelerate the cellular-renewal process and prevent the appearance of wrinkles, the company says. The complete anti-aging skincare line also includes Toner Cream, Revitalizing Bioarome, Tonifying Bioarome and Eye Contour Micro Gel.

(800) 263-8888

Reader Service No. 62

19. Firmagen Nutraceuticals, Inc.

Firmagen™ presents **Skin Repair™**, a pharmaceutical-grade anti-aging dietary supplement system developed by a team of medical and pharmaceutical professionals to help repair and rejuvenate skin from the inside out. Unlike traditional skincare lotions and creams that treat problems on the surface of the skin, Firmagen™ Skin Repair™ works at the cellular level to help stimulate and promote skin's restoration for softer, younger-looking skin, the company says. It can be used alone, or as a complement to any skincare regimen.

23.

20. Decléor

Decléor introduces revolutionary advances in anti-aging skincare targeted for mature skin at any age. Thanks to an immediate skin-tightening action, **Vitaroma Lift Total** wrinkle action and firmness neck and décolleté gel-cream breathes new youthfulness into the delicate areas that are vulnerable against signs of aging.

(888) 414-4471

Reader Service No. 64

21. Carita

Carita introduces **La Cure Parfaite**. The intensive treatment can be used as an occasional four-week treatment, which restores vitality and youthfulness by targeting the three main causes of skin aging: environmental factors, loss of firmness and declining hormone levels.

(888) 414-4471

Reader Service No. 65

22. Bellaire Industry

Bellaire Industry presents its **Multi-Ultrasounds Skin System**. Used for cleansing the skin of impurities, increasing blood circulation, and rejuvenating and oxygenating skin cells, ultrasounds are efficient, reliable and the new wave in skincare, the company says. The systems are designed to penetrate nutrients into skin, stimulate the growth of collagen, relieve muscle and joint pains, and reduce the appearance of wrinkles.

(877) 201-7474

Reader Service No. 66

23. Aesthetic Solutions

Aesthetic Solutions features **Dermaglow® EST**. The portable device is about 14 pounds and requires little shelf space. The Dermaglow® EST is designed to require zero maintenance and has a lifetime warranty, the company says. The medical-grade aluminum-oxide crystals used in the microdermabrasion procedures come in two-sided disposable cartridges that serve as the clean and waste crystal repositories, respectively. When a cartridge is used, a new one is placed, which avoids the traditional filter cleanup and crystal-scooping processes.
